## Data Summary Report: Independent Living Services

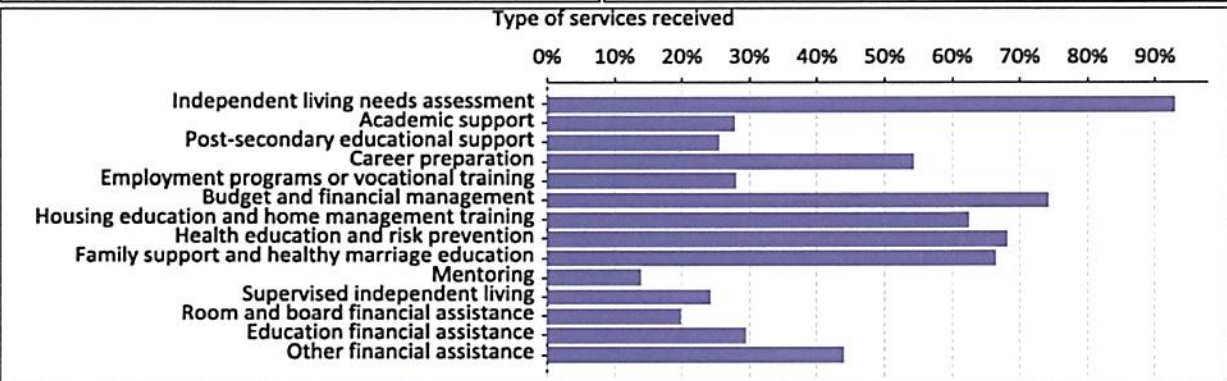

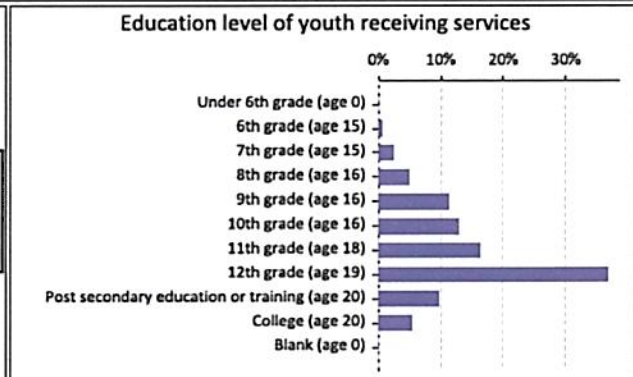

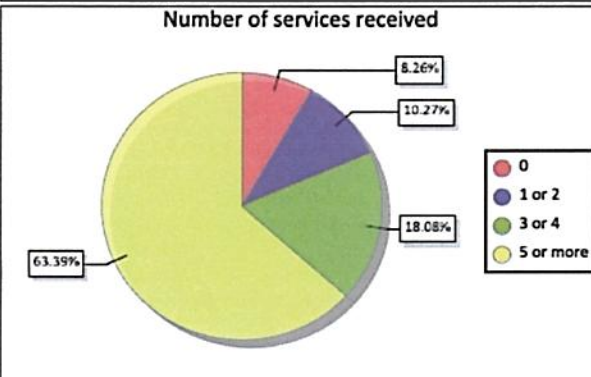

2025A (October 1, 2024 - March 31, 2025)

Puerto Rico

Includes basic information on youth who received at least one independent living service paid for or provided by the State Chafee Foster Care Independence Program (CFCIP) during 2025A.

Total youth reported in the served population: 411

| Characteristics of Youth Receiving |       |                               |       |
|------------------------------------|-------|-------------------------------|-------|
| Male                               | 45.3% | In foster care                | 99.5% |
| Female                             | 54.7% | In Federally-recognized tribe | 0.5%  |
| White                              | 61.8% | Adjudicated Delinquent        | 0.0%  |
| Black                              | 22.9% | Receiving Special Education   | 33.6% |
| American Indian                    | 2.4%  | Age range                     | 14-22 |
| Other Race                         | 15.1% | Mean age                      | 18    |
| Hispanic                           | 96.8% |                               |       |

For "race/ethnicity": Youth may select more than one race or ethnicity category. Percentages may add up to over 100%.

For education: The highest education level completed by a youth who received independent living services.

For services: Percent of youth receiving each service type (of total youth served).

This data summary report was generated using active National Youth in Transition Database (NYTD) data files submitted by the State for the report period(s) indicated above as of 04/07/2025. Data generated by this report should primarily serve as a technical tool to assist states in reviewing and correcting program data, but may not reflect the data used in official program reports.
